A person wearing a long, flowing white robe stands in a misty, open landscape. They are positioned next to a wall that features a circular, textured pattern. The scene is hazy, with a soft, ethereal light filtering through the mist. The person's face is partially obscured by the mist, and their long hair flows down. The overall mood is serene and contemplative.

If we wish to make a new world
we have the material ready.

The first one, too,
was made out of chaos.

— Robert Quillen

A dark, moody photograph of a field at night. The field is covered in tall, green grass and some reddish-brown plants. In the center of the field, there is a single, tall plant with a dark, textured head and a long, thin stem. The lighting is very low, creating a mysterious and atmospheric scene.
